Student Leadership Network

Inspire Leaders

JOIN US TO
Share Your Cool Career!

Cool Careers, Potential Paths (CCPP) seeks to connect Student Leadership Network students – from The Young Women's Leadership Schools' (TYWLS) and CollegeBound Initiative (CBI) partner schools – to professionals from varied career backgrounds. There are many paths to success, and volunteers are invited to visit our schools to speak to students about their unique journeys.

Please join us at one or more schools to share your story with our amazing young people! This is a three-hour morning event, which concludes before noon, where volunteers and students engage in small group conversations in classrooms throughout the school. Our team will prepare students and volunteers for success on the day of the event and will be on hand to assist.

We're excited to have you participate in this fun and rewarding opportunity to engage with our exceptional students!

Questions? Email: ***volunteers@studentleadershipnetwork.org***

Logistics

- Each event is an approximately 3-hour event. Breakfast and networking begins at 8:30 am. The orientation will begin at 8:45 am.
- Volunteers will spend most of their time in a classroom interacting directly with 20-30 students. Sessions will follow either panel discussions or roundtable formats, where volunteers will converse with small groups of students.
- To ensure a smooth check-in process, please bring a government-issued ID to be shown to school security.
- Each classroom will have one teacher and student ambassadors to assist with logistics and questions.
- Remember that our students identify as different genders. To respect their gender identities, we kindly ask that you refer to them as students instead of "girls"/"ladies" or "guys."
- Please keep all conversations appropriate and applicable to the topic at hand.

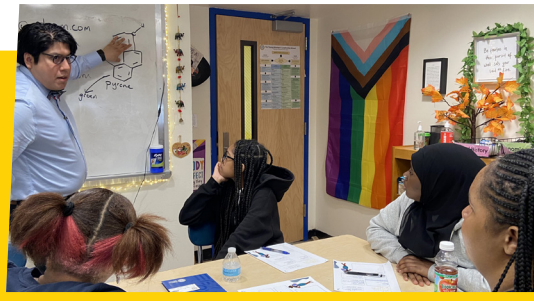

Opportunities to share what you do

- Feel free to bring a presentation that does not require internet access on your personal device or printed.
- Bring a photo from college or work, or an object from your job that represents what you do.
- Remember that students may not use the jargon or language you use daily. Take a moment to explain what certain words/terms mean.
- Keep it interactive: Do a quick trivia round about facts from your career field. Students enjoy this.

Questions to consider

- What do you do for your job? What does your company or workplace do?
- What is the best part of your job/life? What makes you happy?
- What put you on the path to your career?

Student Leadership Network supports young people growing up in diverse, underserved communities to gain access to higher education, helping them fulfill their dreams.

Student Leadership Network's three-decade track record demonstrates higher college enrollment and graduation rates, significantly surpassing national benchmarks. Student Leadership Network advances educational equity by increasing access to higher education in under-resourced public schools nationwide through two models:

- The Young Women's Leadership model elevates practices in girls'+ schools that lead to success and ultimately change the face of leadership. It is currently being implemented at 25 schools nationwide and impacts 12,300 students.
- The co-ed CollegeBound Initiative model develops college-going school cultures — creating high expectations and viable pathways for post-secondary success. It is currently being implemented at 50 schools nationwide and impacts 37,350 students.
